SUMMARY

Motivated Software Engineer with a deep desire to achieve outstanding achievements, started Computer Science degree at age of 15 years. Experience in developing products in the cyber security area, Proficient with server-side languages such as Java, Python, Node.JS, and C#. deep understanding of solid computer science skills in object-oriented design and Design Patterns, data structures, algorithms design, problem-solving, multi-threading, and complexity analysis. Deep Familiarity with cloud provider services (GCP, AWS, Azure), web technologies including micro-services architecture and database technology (MongoDB, MySQL, Neo4j, PostgreSQL), knowledge in big data technologies, full control of Linux-env, Adaptive person, fast learner, team player, and collaborative personality.

EDUCATION

2018-2022

B.Sc. COMPUTER SCIENCE, Netanya College

GPA: 85%

Algorithms-100 | OOP-91 | Data Structures-90 | Cyber-93 | .NET-100

SKILLS

- **Programming:** Java, C#, Python C++, C, JavaScript
- **Frontend:** Html, CSS, React, AngularJS
- **DevOps:** GCP, Terraform, Azure Docker, Jenkins, AWS, GitOps
- **DB:** MongoDB, neo4j, MySQL Hadoop, Kafka, Airflow
- **Backend:** Flask, Tomcat, NodeJS Express, glassfish ,spring
- **Other:** Git, Linux, OpenCV, TensorFlow Networking & Protocols, scripting

PROJECTS

- **Email CDR:** A secure email app that removes all malicious from the email message and the dangers .exe files and return a secure message using python, proxy, JavaScript, HTML, CSS, flask, GCP, and SMTP.
- **Advanced Translator:** A website to translate images, text, audio, Documents , videos, and identify the speakers in the audio files using - python, flask, NodeJS, Deep Learning, OpenCV.

LANGUAGES

Hebrew: Full Professional Proficiency | English: Full Professional Proficiency | Arabic: Native
